David and Luis -

Dan H received the EPA Fact Sheet concerning the TASC Consultant. Dan is very upset and concerned about this Program and the lack of coordination with the community concerning screening consultants and explanation of what is going on. He says that ACME has not been properly coordinated with on this.

Primarily he is concerned that the EPA consultant will be:

- not technically qualified,
- pro-Nuc,
- of use to Chris Rowe's group only;
- and/or have a conflict of interest due to prior work with Boeing or DOE.

Here are his questions:

1. How was the TASC consultant for SSFL selected?
2. Is there more than one TASC consultant available to R9?
3. What are the resumes of the individuals to be assigned to SSFL? Can these resumes be reviewed in advance?
4. Has this consultant and individuals been screened for conflict of interest with Boeing and DOE?

I think his concerns and questions are fair and we should get back to him as soon as possible. Please email me back and I will let Dan know the answers to his questions.

Thanks,
Craig
